

Business Administration Level 4 Higher Apprenticeship

Course Type: Apprenticeships

This Higher Apprenticeship at Level 4 is for anyone who is working or will be learning to work in a business management capacity. The apprenticeship will accredit your learning in college as well as your competence in the workplace giving you a qualification while enabling progression in your employment. It focuses on the skills needed to assess and evaluate competence and decisions in business and to effectively manage time, resources and organisational needs. You will also learn and implement how to best assess and reflect upon your own performance as well as how you communicate in a business environment. This qualification is designed to ensure that you build and improve your skills in management, analytical research, independent enquiry, reflective learning and creative thinking.
