

Engineering: CAD - 2D

Course Type: Part Time Love2Learn

Location: City Centre Campus

This course offers students a varied programme which will include the following aspects of CAD: 2-D drawing commands, 2-D, isometric, surface modelling, annotation and dimensioning, setting up multiple viewports, scaling and layers. It is designed for those who have none or very little previous knowledge of AutoCAD 2015.

What topics are covered?

You will learn a range of AutoCAD features including how to use and apply drawing and modifying commands, drawing aids, control object visibility and appearance, dimensioning of components, use blocks and hatching, set up appropriate drawing layouts to correct scales, and print and plotting. You will also be encouraged to bring in your own work examples to share with others so that a wide range of experience can be gained by all. Please note: the College does not provide CAD software programs or encourage students to use software that is not appropriately licenced to the user.

Who is the course aimed at?

Anyone wishing to learn CAD 2D no experience necessary. Suitable for beginners and those wishing to refresh their knowledge.

How will I learn?
