

Photography - Camera & Darkroom

Course Type: Part Time Love2Learn

Location: City Centre Campus

This course gives you the opportunity to learn how to operate a 35mm SLR including controlling exposure time and depth of field. You will be shown how to process your film and how to produce black and white prints in the darkroom, using a range of darkroom techniques including contrast control, dodging and burning. You will also learn various advanced darkroom techniques and special effects such as toning prints and multiple exposures. You will use a professional photographic studio for a portrait shoot and there will be a group discussion on how your final prints turn out, with feedback from the course tutor.

What topics are covered?

Composing a photograph; Aperture & shutter speed; Black & white film processing; Basic black & white printing; Contrast control; Dodging & burning; Using toners e.g. sepia; Multiple exposures; Photograms; Large scale fine printing.

How will I learn?

Demonstrations, practical workshops and one to one tuition.

What can I do after this course?

Digital Photography

Are there any additional costs?

Black & white film

Which department is this course in?

Department of Creative Arts and Enterprise
