

## Designated Careers Lead

Following the release of the national strategy for careers advice and guidance, all schools and colleges must now have a designated Careers Leader. Careers Leaders are members of the College's leadership and management team and are responsible and accountable for the delivery of their college's programme of careers advice and guidance. The Careers Leader will work with other senior members of staff to develop a vision for the College's careers provision that includes high aspirations for all learners and make sure that the College meets the Gatsby Benchmarks
