## GENDER PAY GAP REPORT 2020

Gender pay gap reporting requires employers with 250 or more employees to publish statutory calculations every year showing the pay gap between male and female employees.

### Gender pay gap:

Mean pay gap 2.0%

Median pay gap 5.7%

The mean gender pay gap is 2.0%, which is a small reduction from last year's figure of 2.1% and is a continued drop since the first report of 5.1% in 2017. This figure is based on a mean male hourly rate of £13.73 and mean female hourly rate of £13.46. The median gender pay gap figure has remained at 5.7% having reduced from 8.5% in 2017 and is based on a median male hourly rate of £13.83 and a median female hourly rate of £13.04.

### Bonus pay:

Mean pay gap 100%

Median pay gap 100%

The mean and median gender bonus gap is 100% as no female staff receive bonus payments. The number of males receiving bonus pay has reduced.

Percentage of males receiving bonus pay: 0.5%

Percentage of females receiving bonus pay: 0%

In line with regulations, employers need to report on the proportion of male and female employees in each of four pay bands, where Lower Quartile represents lowest salaries and Upper Quartile represents highest salaries.

**Pay quartiles:**

48% males 52% females

The upper quartile comprises managers and academic staff

35% males 65% females

The upper middle quartile comprises academic staff and service specialists

41% males 59% females

The lower middle quartile comprises Technicians, senior administrators

35% males 65% females

The lower quartile comprises administrators and operational staff

The figures set out above have been calculated using the standard methodologies used in the Equality Act 2010 (Gender Pay Gap Information) Regulations 2017 and ACAS and Government Equalities Office guidance
